Washington, DC 20554

CG Docket Nos. 13-24 and 03-123

RE: Please Grant FCC Approval of the InnoCaption App
Created by Miracom for Smartphone Devices

Dear Secretary Dortch,

I am writing to strongly endorse the InnoCaption product for a Smartphone and urge the FCC to grant speedy approval of this product for the deaf and hard of hearing community. A product like this is in great demand for those with a hearing loss trying to function in society and compete for employment with the hearing community. It offers a level playing field that is not currently available with other caption products.

For those with a hearing loss, it is difficult to make and/or receive phone calls in any environment, with a mobile application. The hearing impaired should be able to make or receive calls where they want as others do.

For example, in the event of a breakdown on the road, they should be able to call a tow service.

I am not connected with Miracom or the InnoCaption product in any way and do not have a hearing loss, but this seems like common sense for those who need it.

Those with hearing loss should have the same opportunity to use a mobile voice communication device as others.

Thank you for taking serious note of this request.

Sincerely,

Lina Grogan

495 Laurel St.
